

John Wesley Powell Memorial Menu

In the year 1864, Major Powell's USGS exploratory expedition carried 6 edible supplies in their wooden boats. They set out to explore the canyons of the mighty Colorado River, and most of them completed the journey on this fare (long as it lasted) plus whatever they could scavenge:

1. flour
2. bacon
3. dried apples
4. sugar
5. coffee
6. whiskey*

Please specify how many cases of each supply.**

No substitutions, no condiments, and no whining!!
